

<u>MS 015 Joseph Melnick papers</u>
Box-level inventory, April 2013; reformatted into spreadsheet, February 2025
101 boxes; 90 cubic feet
BoB = bureau of biometrics

Collection	Series Title	Series	Box	Collection.Series.Box	Description	Date Range
MS015	Series I: Alphabetical files	1	1	MS015 I.1	Tissue culture; foot and mouth disease	
MS015	Series I: Alphabetical files	1	2	MS015 I.2	Gajdusek reprints and letters; Hepatitis 1950's-1960's; herpes; Horsfall reprints; immunity and immunochemistry; influenza	1950s-1960s
MS015	Series I: Alphabetical files	1	3	MS015 I.3	Influenza 1961-; Dulbecco reprints, etc.; Bodian reprints, etc.; Howe; Morgan, Maxey, and Bell; Aycock; Jungeblut; Koprowski; Lepine; Lwoff; Sabin.	1961
MS015	Series I: Alphabetical files	1	4	MS015 I.4	Sabin and Salk (water-damaged); adenovirus.	
MS015	Series I: Alphabetical files	1	5	MS015 I.5	ARBO: bacteriophage; Beard; diarrhea; echo virus; electrophoresis; encephalitis; enterovirus	
MS015	Series I: Alphabetical files	1	6	MS015 I.6	Polio 1911-1954.	1911-1954
MS015	Series I: Alphabetical files	1	7	MS015 I.7	Polio 1954-1960.	1954-1960
MS015	Series I: Alphabetical files	1	8	MS015 I.8	Polio 1960-circa 1961.	1960-1961
MS015	Series I: Alphabetical files	1	9	MS015 I.9	Polio: Reprints – Duran, Earle, Eagle, Fenner, Gard, Gear, Hammon, Henley; National Foundation (polio?)	
MS015	Series I: Alphabetical files	1	10	MS015 I.10	Reprints – Stanley, Syverton, Taylor, diploid cells, attenuated polio 1960-1961, polio 1962, polio vaccine 1962	1960-1962
MS015	Series I: Alphabetical files	1	11	MS015 I.11	Influenza B 1947-1954; measles 1950's-1963; mumps ?-1964; myxovirus 1957-1963; nucleic acids 1949-1963; pox 1959-1963; psittacosis 1948-1964.	1947-1964
MS015	Series I: Alphabetical files	1	12	MS015 I.12	Rabies 1950's-1957; respiratory virus 1959-1963; smallpox 1953-1962; ultracentrifuge 1936-1950; vaccines – cost benefit analysis; virus 1953-1959.	1936-1962
MS015	Series I: Alphabetical files	1	13	MS015 I.13	Allergic encephalomyelitis; Allerton Press; American Cancer Society; American type culture; antibody; antivirals; bacteriuria and detection of; biohazard and environmental control; cancer; cell culture	
MS015	Series I: Alphabetical files	1	14	MS015 I.14	Composting garbage, Houston; congress; Gilbert Dalldorf; Division of Biologics Standards NIH; animal virus; virus antibody; virus architecture; cancer virus; chemotherapy; chromosome aberrations related to virus; CNS (central nervous system?) viral infections; comparative virology; congenital infections; defective virus; epidemiology; hemadsorption; morphology of viruses; mouse viruses; multiplication of viruses; mutants of viruses; oncolysis by viruses; titration; transformation by viruses; tumor antigens; viruses in urine	
MS015	Series I: Alphabetical files	1	15	MS015 I.15	Hanssen; chlorine and virus; virus-induced diabetes; diarrheal disease; Goldblum; Guillain-Barre syndrome; Saul and Malan Kit; reprints – Oldstone, Parks, Rabin, Peyton Rouse, Rowe	
MS015	Series I: Alphabetical files	1	16	MS015 I.16	Smoking; Tuskegee	
MS015	Series I: Alphabetical files	1	17	MS015 I.17	Ampicillin/cephalosporin marker test; antibiotic removal device; detection of bacteria in water; bacteriuria; Merck/Melnick letters; Fred Rapp; Catherine Rappaport; William Rawls	
MS015	Series II: Correspondence, reprints, and other materials	2	1	MS015 II.1	Melnick reprints.	
MS015	Series II: Correspondence, reprints, and other materials	2	2	MS015 II.2	Undated manuscripts.	
MS015	Series II: Correspondence, reprints, and other materials	2	3	MS015 II.3	Melnick general: Hepatitis B research; WHO hepatitis; tribute to Thomas Karger; Lasker/JLM 1983; Lange; Blumberg; Fazekas de St. Groth; "Studies on viruses as related to cancer with emphasis on leukemia . . ."; SVCP annual and semi-annual reports 8/1974-10/1977; SVCP reports 2/1972-7/1974.	1972-1983
MS015	Series II: Correspondence, reprints, and other materials	2	4	MS015 II.4	Polio; BCM PR and development; Rayzor case; polio congress 1983; environmental virology; Wellcome; France – Pasteur/Merieux; RIT Belgium; EPA; correspondence – general; "Improved methods for HAV and rotavirus . . ."; hepatoma.	1983
MS015	Series II: Correspondence, reprints, and other materials	2	5	MS015 II.5	Correspondence – general, Karger; US Department of Justice 1989 Loge; USPHS committee 1959-1961; neurovirulence tests 1986; polio – neurovirulence; US DOJ – polio vaccine 1991; Gibbs, pro and con section 1978; Fred Brown comparative virology; "portraits" of viruses; 5th ICTV study.	1959-1991
MS015	Series II: Correspondence, reprints, and other materials	2	6	MS015 II.6	Reprints.	
MS015	Series II: Correspondence, reprints, and other materials	2	7	MS015 II.7	Reprints – Henle, Luria, Cox and Koprowski, Mirsky, Lennette, Spiegelman, Claude, Greene, Gross, CF text in virology, DNA as genetic material – historical reprints.	
MS015	Series II: Correspondence, reprints, and other materials	2	8	MS015 II.8	Reprints – Koprowski, Gajdusek, slow viruses, WHO expert committees reports; panel on virology and immunology grant applications 1950's; a brief account of Dr. James Trask; proceedings on the round table conference of in vitro diagnostic tests for poliomyelitis; . . . a complement-fixation test for the diagnosis of poliomyelitis; proceedings of the conference on complement fixation 1954.	1950s
MS015	Series II: Correspondence, reprints, and other materials	2	9	MS015 II.9	Cardiovascular project. Mumps 1967; unpublished manuscripts – Fernandez-Moran, Melnick, Biswal, and Hough 1974 "fine structure of the murine sarcoma . . ."; Melnick "viral vaccines", "evidence linking chronic hepatitis B . . .", letter to the editor of New England J Med 1981; Gyorkey, Gyorkey, and Melnick "appearance of the human malignancy . . ."; Smith, Gerba, and Melnick "rotavirus detection in raw and untreated sewage".	1967-1981
MS015	Series II: Correspondence, reprints, and other materials	2	10	MS015 II.10	Awards and honors.	

Collection	Series Title	Series	Box	Collection.Series.Box	Description	Date Range
MS015	Series II: Correspondence, reprints, and other materials	2	11	MS015 II.11	Other awards, committees, commencements, etc. ASHA Texas Resource Center, Medserv, work group 6 HPA Chicago 1985, McArdle laboratory, Sanford services, ACCME reverse site inspection for AMA, professional liability teleconference, etc.	1985
MS015	Series II: Correspondence, reprints, and other materials	2	12	MS015 II.12	Correspondence, tributes, teaching materials and notes, etc.	
MS015	Series II: Correspondence, reprints, and other materials	2	13	MS015 II.13	Nomenclature, classification, ICNV meetings. Also: Certificate of some sort in a navy blue leatherette case with gold lettering.	
MS015	Series III: Hepatitis and water-borne disease	3	1	MS015 III.1	Hepatitis – World Health Organization materials 1972-1976; Hepatitis – general information 1967-1973	1967-1976
MS015	Series III: Hepatitis and water-borne disease	3	2	MS015 III.2	Hepatitis – general information 1974-1976; Hepatitis B – 1971-1976; Hepatitis A 1971-1976; National Research Council Committee on Viral Hepatitis 1971-1976; NIAID/NIH/NHLI/BoB Working and Advisory Groups on Hepatitis 1971-1975	1971-1976
MS015	Series III: Hepatitis and water-borne disease	3	3	MS015 III.3	Krugman reprints and clippings; 1969 New Haven conference; correspondence on Banatvana report on detection of hepatitis virus by effect on plants; A. M. Prince reprints; Safety tests 1968-72 (see Joliet); Zuckerman letters and reprints 1973-1975; Hepatitis B vaccine 1975; Hepatitis talks and meetings 1974-1977	1968-1977
MS015	Series III: Hepatitis and water-borne disease	3	4	MS015 III.4	“Virus/Water” 1978-1979 – Water; water and virus isolation; water recycling; water disinfection; water/virus WHO report; water/virus EPA report, etc.; reprints; G. Belfort reprints; Water/Berg/EPA 1980-1983; Hepatitis – alphabetical circa 1969-1978 – correspondence; army/hepatitis; Baylor Experimental Program; Baylor reprints; Baylor baboons and monkeys; Baylor – Burkhard, Gyorkey, Hollinger; Blumberg; Boggs; Bucharest/WHO 1975 meeting; chimpanzees, NHLI; cytopathology – Kirtk, et. al.; Czechoslovakia, Romania, & Italy specimens 1967-1969; Deinhardt/Baylor; Detroit-6 cells; Baylor – Mirkovic, Kirk data, Enders; fecal antigen; Hilleman; Joliet.	1967-1983
MS015	Series III: Hepatitis and water-borne disease	3	5	MS015 III.5	Viruses in water – reprints.	
MS015	Series III: Hepatitis and water-borne disease	3	6	MS015 III.6	Viruses and water – sewage, virus contamination, pollution, virus inactivation, virus isolation, correspondence and notes, food, Houston, sludge, Chicago, solar energy.	
MS015	Series III: Hepatitis and water-borne disease	3	7	MS015 III.7	Reprints on waterborne viruses; water, Abilene, Texas. Other materials: ASTM standard method – enteric viruses; plaques; replication; stabilization; viremia; viroids.	
MS015	Series III: Hepatitis and water-borne disease	3	8	MS015 III.8	Reprints 1966-1976, with listing.	1966-1976
MS015	Series IV: Cancer	4	1	MS015 IV.1	Solid Tumor Viral Segment; Hubner/Baylor adeno project 1968; cell cultures 1969; Sabin-Hueber-Lennette-Melnick meetings; DNA tumor viruses	1968-1969
MS015	Series IV: Cancer	4	2	MS015 IV.2	National Cancer Board; nucleoproteins; reprints – Tamm, Todaro; National Cancer Institute Viruses and Cancer Panel; Cancer Virology Panel. Appears to be mostly from 1961-1962.	1961-1962
MS015	Series IV: Cancer	4	3	MS015 IV.3	National Advisory Cancer Council – letters, reports, grants, programs, meetings, 1960’s.	1960s
MS015	Series IV: Cancer	4	4	MS015 IV.4	National Advisory Cancer Council and National Cancer Institute material, 1967-1968.	1967-1968
MS015	Series IV: Cancer	4	5	MS015 IV.5	NACC meetings 1969; research contract information; NACC reports - cell biology unit, prostate cancer task force, cancer center application, progress against cancer; books on solid tumor-virus working group	1969
MS015	Series IV: Cancer	4	6	MS015 IV.6	Cancer [publication] reprints 1960’s and 1970’s; reprints – cancer antigens, cancer cell lines, chemotherapy, colon, epidemiology, frog, immunity and immunology, immunotherapy, mammary, penis, primates, prostate, carcinogenesis, carcinogenic hazards.	1960s-1970s
MS015	Series IV: Cancer	4	7	MS015 IV.7	Reprints – Virus/Cancer 1961-1978; unpublished manuscripts.	1961-1978
MS015	Series IV: Cancer	4	8	MS015 IV.8	National Cancer Institute booklets and binders; Virus and Cancer Board; viral tumorigenesis report; re: national cancer plan; digest of recommendations for the National Cancer Program Plan; NCI virus cancer plan booklets 1970’s.	1970s
MS015	Series IV: Cancer	4	9	MS015 IV.9	National Virus-Cancer Program of NCI in cooperation with NIAID; Baylor Virology Department research; national collaborative working groups; Melnick advisory committees; National Advisory Cancer Council.	
MS015	Series IV: Cancer	4	10	MS015 IV.10	Mostly reprints – plant viruses; Venezuelan equine encephalitis; West Nile; cell antigen; viruses and cancer (WHO); leukemia; cardiovirus; rhinovirus	
MS015	Series IV: Cancer	4	11	MS015 IV.11	Cervical cancer/human papillomavirus; WHO; comparative virology; Expert Committee on Biologic Standards[?] revised 1983.	1983
MS015	Series V: Polio	5	1	MS015 V.1	Yale poliomyelitis studies, 1943 – 1954 (incomplete). Lots of water damage. The text is mostly readable but photo-reproduced graphs and images were destroyed. 1955 includes addendum paper on coxsackie virus in capuchin monkeys. “Present day concepts of the epidemiology of polio” drafts.	1943-1955
MS015	Series V: Polio	5	2	MS015 V.2	Israel, Gaza	
MS015	Series V: Polio	5	3	MS015 V.3	Israel, Gaza	
MS015	Series V: Polio	5	4	MS015 V.4	World Health Organization, vaccines-government regulations.	
MS015	Series V: Polio	5	5	MS015 V.5	vaccines, World Health Organization.	
MS015	Series V: Polio	5	6	MS015 V.6	V-agent, World Health Organization, Institute of Medicine “Evaluation of Polioimyelitis Vaccines” 1977	1977
MS015	Series V: Polio	5	7	MS015 V.7	WHO consultation group on oral vaccine; re: Institute of Medicine evaluation; reprints; Hsiung & Melnick extra figures; Conn[ecticut?] study; Sabin; reprints gathered in 1980; eradication 1978	1978-1980
MS015	Series V: Polio	5	8	MS015 V.8	Vaccine, V-agent, vaccines – early problems and associated cases.	

Collection	Series Title	Series	Box	Collection.Series.Box	Description	Date Range
MS015	Series V: Polio	5	9	MS015 V.9	Geneva meetings; evolution in virus; virus freezing; virus-induced enzymes; virus diagnosis; virus latency; virus inclusions; virus inactivation; virus lab infections; virus inhibitors; virus pathogenesis; Merck congressional statements; Italy, St. Vincent prize; Wyeth; Zhdanov.	
MS015	Series V: Polio	5	10	MS015 V.10	Baylor: John R. Paul "Annual Report of the Section on Preventative Medicine" 1955-1956, 1956-1957; Dutch epidemic 1978; Institute of Medicine "An evaluation of poliomyelitis vaccine policy options" 1988; papers by Melnick 1980's; "A brief account of Dr. James D. Trask (1891-1942), pioneer American research worker on infantile paralysis"; transcript of 1959 Pan-American Health Organization/World Health Organization conference on live poliovirus vaccines; NIH 1957 and 1958 reports material.	1955-1980s
MS015	Series V: Polio	5	11	MS015 V.11	Polio in Houston, general information and newspaper clippings.	
MS015	Series V: Polio	5	12	MS015 V.12	Polio, international - various topics, 1950's-early 1960's.	1950s-1960s
MS015	Series V: Polio	5	13	MS015 V.13	Vaccine committee; hearings on oral vaccine; surgeon general's committee; other material circa 1940's-1950's.	1940s-1950s
MS015	Series V: Polio	5	14	MS015 V.14	WHO meetings circa 1970's-1980's; Geneva; Israel/Gaza, Egypt, Jordan, etc.	1970s-1980s
MS015	Series V: Polio	5	15	MS015 V.15	WHO material circa 1960's	1960s
MS015	Series V: Polio	5	16	MS015 V.16	1990's; WHO various 1960's-1980's; chimpanzees, 1988.	1960s-1980s
MS015	Series V: Polio	5	17	MS015 V.17	WHO. Also water virus.	
MS015	Series V: Polio	5	18	MS015 V.18	Live vaccine; surveillance reports, etc. 1950's-1960's.	1950s-1960s
MS015	Series V: Polio	5	19	MS015 V.19	Vaccines, various committees and conferences, late 1950's-early 1960's.	1950s-1960s
MS015	Series V: Polio	5	20	MS015 V.20	WHO 1957-1963.	1957-1963
MS015	Series V: Polio	5	21	MS015 V.21	Polio vaccine cases; small amount of material on MMR and measles (Keach)	
MS015	Series V: Polio	5	22	MS015 V.22	Litigation in polio cases (claimed vaccine-caused) 1970-1984; Wellcome.	1970-1984
MS015	Series V: Polio	5	23	MS015 V.23	Polio; seminars; sources; monkey testicular culture; Trihalose[sp?]/Roser/Polio WHO 1989; ocular motor anomalies; various subjects.	1989
MS015	Series V: Polio	5	24	MS015 V.24	Litigation in polio cases (claimed vaccine-caused) 1984-1989.	1984-1989
MS015	Series V: Polio	5	25	MS015 V.25	WHO 1966-1985.	1966-1985
MS015	Series V: Polio	5	26	MS015 V.26	WHO, various and general. Also hepatitis, enterovirus.	
MS015	Series V: Polio	5	27	MS015 V.27	China, polio and hepatitis.	
MS015	Series VI: Other viruses	6	1	MS015 VI.1	Various: Papillomavirus, nucleic acid, Sinkovics; polio-Cuba, immunity, eggs, clinical, chromatography, diagnosis.	
MS015	Series VI: Other viruses	6	2	MS015 VI.2	Craig Wallis; SV40 talk 1963 Papova Vagent; NIH SV40; ICNV 1968; aseptic meningitis; National Wildlife Fed 1983-4; Lymphocytic choriomeningitis; Marburg; Marek's disease; mammary tumor virus; food virology program; environmental pollution; virus/water; scientific group on human viruses, Geneva 1978.	1963-1984
MS015	Series VI: Other viruses	6	3	MS015 VI.3	Enterovirus; pool testing; Christ Hospital; Anzai, Assael, Burnet, Colombia, Deinhart, Desmyter, Duvan, Gyorky, Hollinshead.	
MS015	Series VI: Other viruses	6	4	MS015 VI.4	WHO; Immunology, infectious disease, influenza (animal), WHO information, NIAID/WHO liaison 1964, rhinovirus cooperative program 1964-1966, vaccination certificate requirements, vaccines, virus (various topics).	1954-1966
MS015	Series VI: Other viruses	6	5	MS015 VI.5	Enterovirus committee; virus reference reagents board NIAID 1962-1965; ad hoc enterovirus advisory group/enterovirus study; picornavirus panel NIH 1960-1965; enterovirus candidate strains; rhinovirus candidate strains.	1960-1965
MS015	Series VI: Other viruses	6	6	MS015 VI.6	Papomavirus.	
MS015	Series VI: Other viruses	6	7	MS015 VI.7	Papomavirus.	
MS015	Series VI: Other viruses	6	8	MS015 VI.8	Parvovirus; arthropod-borne viruses/arbovirus.	
MS015	Series VI: Other viruses	6	9	MS015 VI.9	Herpes; Marek; RSV-RAV; ROUS sarcoma virus.	
MS015	Series VI: Other viruses	6	10	MS015 VI.10	Smallpox; West Nile; encephalitis; reprints – Olitsky, Pickels, Hirst.	
MS015	Series VI: Other viruses	6	11	MS015 VI.11	Influenza, measles, tric, trachoma, paramyxovirus, simian viruses.	
MS015	Series VI: Other viruses	6	12	MS015 VI.12	Adenovirus; cytomegalovirus workshop booklet.	
MS015	Series VI: Other viruses	6	13	MS015 VI.13	Rabies, reovirus, "vaccinia", yellow fever.	
MS015	Series VI: Other viruses	6	14	MS015 VI.14	Rubella.	
MS015	Series VI: Other viruses	6	15	MS015 VI.15	Virus agents section, alphabetically: Adeno-associated, adenovirus, adeno serum, arbovirus, arenavirus, bacteriophage, bluetongue, calicivirus, canine distemper, cat scratch, Colorado tick fever, coronavirus, Dengue, diplomavirus, EB virus, Ebola, ectromelia, fibroma, fish virus, influenza, invertebrate viruses, Lassa fever, molluscum contagiosum, mouse virus, mumps, murine sarcoma virus, mycovirus.	
MS015	Series VI: Other viruses	6	16	MS015 VI.16	Section on virology; herpesvirus.	
MS015	Series VI: Other viruses	6	17	MS015 VI.17	Photodynamic inactivation.	
MS015	Series VI: Other viruses	6	18	MS015 VI.18	Photodynamic inactivation; swine flu clippings; encephalitis clippings; Neurotropic Virus Infections (1954).	1954
MS015	Series VI: Other viruses	6	19	MS015 VI.19	Interferon	
MS015	Series VI: Other viruses	6	20	MS015 VI.20	AIDS	
MS015	Series VI: Other viruses	6	21	MS015 VI.21	Travel – conferences and concerns in other countries.	
MS015	Series VI: Other viruses	6	22	MS015 VI.22	Intervirolgy – three bound volumes.	
MS015	Series VI: Other viruses	6	23	MS015 VI.23	AIDS 1982-1986.	1982-1986
MS015	Series VI: Other viruses	6	24	MS015 VI.24	Arthrosis, radiculopathy, sprain, myelopathy, "cervical – Nikki Case".	
MS015	Series VI: Other viruses	6	25	MS015 VI.25	Virus agents, alphabetically: myxomatosis/myxoma virus; Newcastle; oncornavirus; parvoviridae/parvovirus; rabies; respiratory syncytial virus; rotavirus; rubella; spumavirus; varicella/zoster virus.
