Administrative history / Biographical sketch

Note

Adelbert Louis Dippel was born in Ehlinger (now Ellinger), Texas, near LaGrange in Fayette County, on July 10, 1901. His grandparents all emigrated from Germany around 1850. His family wanted him to become an engineer but he had decided on medicine when he was twelve and admired the family doctor who treated him for malaria. He attended Blinn College in Brenham before earning both a B.S. and an M.S. from the University of Texas in 1924, then an MD from UTMB in 1928. Renal calculi kept him out of the service during World War II. Dr. Dippel was an instructor and associate professor in obstetrics at Johns Hopkins University from 1934 to 1940, then at the University of Minnesota from 1940 to 1943; he was head of that department in 1943 and 1944. He then returned to Texas to take positions at Baylor College of Medicine and UTMB, where he remained until he retired in 1977. He died in Tacoma, Washington, on September 6, 1991.
