Custodial history

Deed-1

Scope and content

The papers of John L. Decker, MD primarily document his work at the National Institute of Health (NIH) as well as his involvement in professional organizations. His travel to and participation in conferences, lectures, and professional committees make up a significant portion of the papers.

The collection includes experiments, experiment data, experimental findings, rheumatoid studies, genetic studies, patient profiles, and X-rays. Patient materials such as X-rays are restricted. There are also texts of lectures given by Decker, typed manuscripts and letters, correspondence with colleagues in the fields of rheumatology, and materials relating to developed treatments. Also included are Decker's published works and findings, institutional publications, and reprints.

The papers mostly correspond to Decker's stint at the NIH, 1965-1990. However some date as far back as 1931 and as late as 1992.

Subjects: Rheumatology, Genetics

Notes

Physical condition

Materials are generally in good condition.

Immediate source of acquisition

Deed of gift signed by John L. Decker, M.D. 12/29/1992

Arrangement

Most of the materials are found throughout Series 1: Professional Papers. For the most part, there is no clear arrangement within the materials. Folders clearly labeled "Project 352" and numbered X-rays have each been separated out into their own distinct, small series. However, there are almost certainly other research projects and X-rays among the Professional Papers in Series 1.

Restrictions on access

This collection is open for research. However, X-rays and other patient information are restricted.

Conditions governing use

Copyright restrictions may apply. Permission to publish from this material must be facilitated through the repository, McGovern Historical Center.

Finding aids

Yes

Accruals

No accruals are expected for this collection.
