Summary information

Repository:	McGovern Historical Center, Texas Medical Center Library
Title:	Thomas Matney, PhD papers
Reference code:	MS 146
TARO [00022] :	00022
Date:	1929-2011 (creation)
Physical description:	10.5 cubic foot (13 boxes)
Dates of creation, revision and deletion:	August 10, 2011

Administrative history / Biographical sketch

Note

“Dr. Thomas S. Matney was a Houston philanthropist and emeritus professor of genetics and environmental science at The University of Texas Health Science Center and M. D. Anderson Cancer Center Graduate School of Biomedical Sciences. Professor Matney made important contributions to scientific understanding of cancer-causing agents and the genetic mechanisms that underlie the development of cancer. His wide-ranging philanthropic and service activities enhanced the well-being of hundreds of Houston-area children and families.

Thomas Stull Matney was born on September 21, 1928, in Kansas City, Missouri. His family moved to Texas when he was 10 years old. He received bachelor's and master's degrees in biology and chemistry from Trinity University in San Antonio, and the Ph.D. degree in bacteriology from the University of Texas at Austin.

In the 1950s, Matney served as Captain and later civilian Medical Bacteriologist in the U.S. Army Chemical Corps in Fort Detrick, Maryland where he developed protections for chemical and biological weaponry. Dr. Matney moved to Houston to join the Biology Department of the M.D. Anderson Hospital and Tumor Institute in September of 1962. He became the first associate dean of the newly formed UT Graduate School of Biomedical Sciences and a Distinguished Professor Emeritus. He was also a member of M. D. Anderson Steering Committee for Alumni and Faculty.

Dr. Matney was a generous supporter of the University and mentor to many graduate students. He personally financially supported students studying at the UT-Graduate School of Biomedical Sciences. He established endowments of The Thomas Stull Matney Professorship in Cancer Genetics and The Thomas Stull Matney Professorship in Environmental and Genetic Sciences, both to support scientific excellence and service to graduate education.

He was married to Glenda Matney nee Oglesby until her death in 1990 and had three children with her. He remarried Nancy Lee Matney.

Dr. Matney's community service activities focused primarily on the well-being of at-risk children. He served as a consultant to the City of Houston Parks and Recreation Department about problems concerned

with violence prevention in children. He was a Trustee and raised millions of dollars for Hospitality Apartments, which provides affordable housing for those undergoing long term medical treatment in Houston.

Dr. Matney was a past president of Emerson Unitarian Universalist Church, in Houston. He was also a Past President of the Houston Chapter of National Train Passenger Association as well as other national and local rail road organizations.

Dr. Matney died at the age of 82 on November 28, 2010 after an extended illness.” (1)

Custodial history

Deed-1

Scope and content

The Thomas Matney papers, MS 146, includes materials from 1926 through 2011 relating to Dr. Matney’s research in genetics, Dr. Matney’s teaching materials, and his research as a community activist into the support and well being of at-risk children. Dr. Matney was the first associate dean of the newly formed UT Graduate School of Biomedical Sciences as well as a professor of genetics and environmental science and a student advisor. Professor Matney made important contributions to scientific understanding of cancer-causing agents and the genetic mechanisms that underlie the development of cancer.

This collection contains eleven series: I. Personal Papers; II. Administrative Papers III. Business Correspondence; IV. Publications; V. Research; VI. School and Community Research Projects; VII. Teaching Materials; VIII. Student Files; IX. Travel; X. Realia and Ephemera; and XI. Audiovisual Materials. This collection contains much of the research conducted by Dr. Matney as well as his teaching materials. One of the highlights of this collection is the research proposals and papers from Dr. Matney's time with the Atomic Energy Commission along with a letter from Dr. Schull of the RERF to Dr. Matney when he was ill. Another highlight of the collection is the Temperature Gradient Plate, a device invented by Dr. Matney. The materials in this collection are in good condition with some minor tears and brittle paper. Mrs. Nancy Matney donated Dr. Matney’s collection of personal and business correspondence, photographs, newspaper articles, pamphlets, diplomas, awards, artwork, a scrapbook, yearbooks, journal articles, abstracts, contracts, applications, research notes and notebooks, lecture notes, audiovisual material, ephemera, and realia to the John P. McGovern Historical Collections and Research Center in January 2011. The collection is 10.5 cubic feet (thirteen boxes) and is collection 146.

Notes

Immediate source of acquisition

Mrs. Nancy Lee Matney donated her late husband's papers and other materials to the Houston Academy of Medicine-Texas Medical Center Library in January 2011.

Arrangement

This collection is arranged into the following series.

Series I: Personal Papers; 1929-2010
Series II: Administrative Papers; 1948-2010
Series III: Business Correspondence; 1963-2007
Series IV: Publications; 1934-2009
Series V: Research; 1933-2003
Series VI: School and Community Research Projects; 1969-2000
Series VII: Teaching Materials; 1976-2007
Series VIII: Student Files; 1963-2005
Series IX: Travel; 1979-1982
Series X: Realia and Ephemera; 1962-2011
Series XI: Audiovisual Materials; 1980-2010

Restrictions on access

The collection is open for research.

Conditions governing use

Copyright restrictions may apply.

Related material

Related materials include the Thomas S. Matney Oral History Interview, a part of the Making Cancer Voices History Collection at the University of Texas M. D. Anderson Cancer Center Research Medical Library. Consult an archivist for more information.

Accruals

No accruals are expected for this collection.
